Breast MRI Case Review

Course Overview and Educational Objectives for the Breast MRI Series

This series brings to learners the opportunity to view a variety of breast MRI cases as expert faculty share their experience and approach to breast MRI in their practice.

At the conclusion of this activity, participants should be better able to:

- Develop a systematic strategy to interpret breast MR images and improve diagnostic accuracy
- Use standardized terminology to assess and report breast MRI abnormalities in accordance with ACR BI-RADS® for MRI
- Evaluate the role of morphology and kinetics when assessing a breast lesion
- Apply standard methods and strategies for MR-guided breast biopsy intervention

This activity has been approved for *AMA PRA Category 1 Credit(s)*™

Approved for 1.0 hour of ARRT Category A+ continuing education credit

Credit cannot be granted for group viewing

Jointly sponsored by
