Course Overview

This series brings to learners a variety of breast MRI cases as expert faculty will share their experience and approach to breast MRI in their practice.

Educational Objectives for the Series

- Develop a systematic strategy to interpret breast MR images and improve diagnostic accuracy
- Use standardized terminology to assess and report breast MRI abnormalities in accordance with ACR BI-RADS® for MRI
- Evaluate the role of morphology and kinetics when assessing a breast lesion
- Apply standard methods and strategies for MR-guided breast biopsy intervention

Jointly sponsored by
