

IHE Integration Statement

SuperSonic[®] MACH 40 Ultrasound System V2.X software

Revision: B Date: May 15, 2020 **Doc Ref:** RD.DD.487 (RevB) **Software Version:** V2.x

Introduction

Integrating the Healthcare Enterprise® (IHE) is an initiative by healthcare professionals and industry to improve the way computer systems in healthcare share information. Systems that support IHE Integration Profiles work together better, are easier to implement, and help care providers use information more effectively. The goal is efficient delivery of optimal patient care.

IHE Integration Statements are documents prepared and published by vendors to describe the intended conformance of their products with the IHE Technical Framework. Integration Statements tell consumers the specific IHE capabilities a given product is designed to support in terms of the key concepts of IHE: Actors and Integration Profiles.

IHE Integration Statement
