

HOLOGIC®

November 6th, 2015

PRODUCT DISCONTINUATION NOTIFICATION

Dear Hologic Customer,

As a valued Hologic customer, you have our commitment to provide you with the highest quality customer service, product support and technologically advanced products.

As a leading global healthcare and diagnostic company, we strive to make advances toward greater certainty for our customers by providing them with cutting edge technology that makes a real difference in patients' lives.

In recent years, our workstation products have been refocused on displaying and analyzing breast images. As a result of introducing the MultiView MRI visualization software to the market and establishing clear upgrade paths for Aegis Breast and Aegis Biopsy customers, we decided to discontinue the sale of all Aegis products. Our refocus on breast imaging has resulted in not offering a Prostate version of MultiView, therefore leaving no upgrade options for Aegis prostate.

Effective November 6th, 2015, Hologic is announcing the End of Life (EOL) for:

- **All Aegis Software and the Aegis family of products**

Hologic and its authorized dealers will continue to provide phone support, onsite service support, and materials (based on the availability of replacement components) for the above mentioned products. Every effort will be made to service our current customers through June 10th, 2021. Service agreements currently in effect past the EOL date will be honored; however, new and renewal service agreements will be accepted at the discretion of Hologic. Every effort will be made to provide uninterrupted service to our customers throughout this period.

For all questions concerning this End of Life notice, or for assistance to identify your local Hologic Account Manager, please contact Hologic Customer Sales Support at 1-877-992-9892.

Sincerely,

Robert Desrochers
Vice President, Field Service
