

August 1st 2013

PRODUCT DISCONTINUATION NOTIFICATION

Dear Hologic Customer,

As a valued Hologic customer, you have our commitment to provide you with the highest quality customer service, product support and technologically advanced products. We pride ourselves in being the leading manufacturer of Women's Health products, a goal that could not be achieved without customers like you. As part of our effort to remain the leader in computer aided detection (CAD) for digital mammography, we strive to offer product improvements and enhancements to our customers via upgrades and new software releases. After careful consideration, it is necessary to declare product discontinuation, including software development for enhancements and patches, on the legacy versions of ImageChecker CAD v8.x. A product first released by R2 Technologies in 2006, available only on a Linux platform.

As of August 1st 2013, we will continue to provide phone support, onsite service support, and materials based on the availability of replacement parts. Every effort will be made to service our current customers through Aug 17st 2016. Support on legacy ImageChecker CAD systems may require hardware and/or software upgrades in order to continue use. Systems that have already transitioned into our new Cenova platform with ImageChecker 9.x, are not impacted by this End of Life notification.

Upgrade options to our latest version of ImageChecker CAD are available. Upgrades may require hardware and software or software only. Please contact the Customer Services department at 1-866-243-2533 or call your local Hologic Account Manager to learn more about the upgrade options for your legacy ImageChecker CAD system.

Hologic wants to continue its relationship with you into the future. We remain committed to providing our customers with the highest quality products and service. We regret any inconvenience that this may cause, however we believe you will find our new product offerings very attractive.

In the event that your ImageChecker CAD v8.x is no longer in use or if it has been upgraded to **Cenova with ImageChecker CAD v9.x** (a supported version of ImageChecker CAD), please contact the Customer Service department at 1-866-243-2533 or email SC.TechSupport@Hologic.com with your system serial number.

Sincerely,

A handwritten signature in black ink that reads "Roger D. Mills". The signature is written in a cursive style with a large, prominent 'R' and 'M'.

Roger Mills,
Sr. Vice President and General Manager, Customer Service
