## PRODUCT DISCONTINUATION NOTIFICATION

Dear Fluoroscan® Customer,

As a valued Hologic customer, you have our commitment to provide you with the highest quality customer service, product support and technologically advanced products. We pride ourselves in being the leading manufacturer of mini C-arms, a goal that could not be achieved without customers like you. Unfortunately, the increasing scarcity of replacement parts for older mini C-arm systems makes it difficult for us to support some older models.

Our records indicate that your facility purchased a **Fluoroscan Premier Encore or Premier mini C-arm**; both are now discontinued models, last manufactured over seven years ago. After careful consideration, it is necessary to declare End of Life on this product line. After March 2013, we will continue to provide phone support, time and materials service and service agreements based on the availability of replacement parts.

For customers wanting to update to the latest mini C-arm technology, Hologic has established a special upgrade offer for facilities receiving this notification. This limited time offer combines special system pricing and trade-in as well as service incentives for customers upgrading their mini C-arm system. You may contact a Hologic representative to discuss this offer.

Hologic wants to continue its relationship with you into the future. We remain committed to providing our customers with the highest quality products and service. We regret any inconvenience that this may cause, however we believe you will find our new product offerings very attractive. If there are any questions, please contact the Customer Service department at 1-800-321-4659.

Please register your contact information with the provided link for expedited updates and information regarding our products at [www.fluoroscan.com/EOL](http://www.fluoroscan.com/EOL)
