

Contura® Brachytherapy - End of Sale Notification

August 9, 2022

Dear Hologic Customer,

Hologic is committed to providing you the highest quality customer service, product support, and technologically advanced products to transform breast and skeletal patient care.

As a leading global healthcare and diagnostics company, we strive to make advances toward greater certainty and efficiency for our customers by providing them with cutting-edge technology that makes a real difference in patient lives. As technology develops, older systems inevitably face an increasing scarcity of replacement components that eventually makes it impossible for us to support certain components indefinitely.

With this in mind, we have decided to stop selling the Contura brachytherapy products and will transition these products to End of Life status (EOL). Below is a chart of the part numbers impacted by the EOL status:

Contura products that had been previously EOL as of December 31,2020
