M-IV™ PRODUCT END OF SALES/LIFE NOTIFICATION

Dear Hologic Customer:

As a valued Hologic customer, our commitment is to provide you with the highest quality customer service, product support and technologically advanced products.

As a leading global healthcare and diagnostics company, we strive to make advances toward greater certainty for our customers by providing them with cutting-edge technology that makes a real difference in patient lives.

In recent years, we continue to see a tremendous increase in demand for our Selenia® Dimensions® system product line worldwide, as well as an increased demand for Hologic's 3D Mammography™ technology. As a result the demand for our M-IV™ system has decreased, and we have decided to stop selling the M-IV systems at the end of September 2015.

Effective **September 26, 2015**, Hologic is announcing End of Life (EOL) for:

- **M-IV Platinum screen film mammography systems**
- **StereoLoc® II upright biopsy product**

Hologic and its authorized dealers will continue to provide phone support, on-site service support, and parts support (based on the availability of the replacement components) for the above mentioned product as follows:

- **September 25, 2022 - End of Support for all Non-U.S. Gov't DOD Contract Customers (7 years)**
- **September 25, 2025 -End of Support for all U.S. Gov't DOD Contract Customers (10 years)**

Service agreements currently in effect past the EOL date will be honored; however, new and renewal service agreements will be accepted at the discretion of Hologic. Every effort will be made to provide uninterrupted service to our customers throughout this period.

Hologic is encouraging our valued customers to contact their local Hologic Account Manager, or a Hologic Customer Sales Support representative to obtain more information on our selection of state of the art, industry leading mammography products

such as the newly introduced Selenia Dimensions 3000, 6000 and 9000 product platforms that offer the upgradeability to Hologic's Selenia Dimensions breast tomosynthesis software, the Affirm™ system with Tomo guided biopsy feature, and contrast –enhanced mammography software.

For all questions concerning this End of Sales/Life Notice, or for assistance to identify your local Hologic Account Manager, please contact Hologic Customer Sales Support at **1-877-992-9892**.

Sincerely,

Roger D. Mills
Vice President, Service and Support
