

PRODUCT COMPONENTS END OF SERVICE AND SALE NOTICE

End of Support, End of Sale and hardware obsolescence for older SecurView® software, hardware, and components.

We will continue to innovate SecurView Workstations specifically for reading breast studies and optimizing the workflow of radiologists.

March 2023

Dear Hologic Mammography Customer,

As a valued Hologic customer, you have our commitment to provide you the highest-quality products and customer service. We thank you for your business.

After carefully considering our supply chain requirements for certain parts and our commitment to providing quality service, Hologic is discontinuing service on selected SecurView Workstation components that were declared End of Sale by the Original Equipment Manufacturers (OEM) over 5 years ago. As a result, several components are now End of Life.

Our records indicate that your facility may have purchased SecurView equipment containing at least one of the components listed in the Appendix. Hologic is encouraging our valued customers to contact their local Hologic Account Manager or Hologic Service Sales Manager to obtain more information on new workstation or component upgrade offerings.

Current active service agreements for SecurView Workstations that include these components will remain in effect at their current levels of coverage until their termination dates. Once the service agreement expires, it cannot be renewed, and your service will be on a "Time & Materials" reasonable effort basis. However, you may purchase the Renew entitlement on certain components to extend your service agreement.

Limited phone support and preventive maintenance will be available for End-of-Life components based on the availability of service parts. It is the policy of Hologic to provide service and service parts (if available) for 7 years from the date of purchase or unless otherwise noted. This letter serves as both an announcement and reminder.

If you should have any questions, please contact your local Hologic Account Manager or Hologic Service Sales Manager to obtain information regarding upgrade programs. We apologize for any inconvenience this may cause, but trust you understand our commitment to quality service.

Sincerely,

A handwritten signature in black ink, appearing to read "Sujal Patel".

Sujal Patel
VP, Global Service Operations
